

DocEng 2009

DocEng 2009 | The 9th ACM Symposium on Document Engineering |

September 15-18, 2009, Munich, Germany

<http://doceng09.cs.unibw.de> | doceng@unibw.de

Document engineering is the computer science discipline that investigates systems for documents in any form and in all media. As with the relationship between software engineering and software, document engineering is concerned with princip-

les, tools and processes that improve our ability to create, manage and maintain documents.

The ACM Symposium on Document Engineering is an annual academic conference. Researchers are invited to submit papers and to attend DocEng 2009.

Best Paper Award

The authors of the best papers presented at DocEng 2009 will be invited to present an extended version of their publication within a Special Issue of the Springer Journal of Computer Science - Research and Development.
